

CHAPTER 4.00 - CURRICULUM AND INSTRUCTION

HOMEWORK

4.13

The Henry County Board of Education recognizes that homework should be meaningful and reasonable. It should not be a substitute for teaching but should provide reinforcement, practical application, and enrichment of what has been taught. Consideration should be given to the time involved in completing homework assignments. No homework assignment should be made that does not directly support a clearly identified instructional objective.

The Board encourages the use of reasonable homework assignments that both support instructional objectives and expand the scope of instruction limited by the constraints placed on classroom teaching.

Homework assignments should be commensurate with the resources available. Homework should not be used as punishment for disciplinary infractions. Students should receive feedback on homework assignments.
